

# Unique threat intelligence

Let us help you migrate your workloads to Microsoft Azure

Security remains a top priority for organisations today.

of surveyed organisations cite compliance as a top cloud challenge<sup>1</sup>.

of security incidents can be traced to missing modern security approaches<sup>2</sup>.

of surveyed ransomware attack victims did not invest in security information and event management (SIEM) technology.<sup>2</sup>

of affected organisations did not integrate their multi-cloud environments into their security operations tooling.<sup>2</sup>

As an experienced Microsoft Partner, we can implement industry-standard security practices and ensure compliance with relevant regulations, safeguarding your sensitive information in Azure.

## Azure: Unmatched security

Azure provides industry-leading comprehensive, multilayered security from chip to cloud without disruptions. We can help you customise the right plan for adopting the cloud on your terms.

Best-in-class threat intelligence

50%

Reduction in time to remediate threats<sup>3</sup>

Unification of security tools and vendors

30%

Reduction in time spent on security & compliance<sup>3</sup>

Significant cost savings

219%

Azure Security Center Return on investment over three years<sup>4</sup>

## A comprehensive and unified security platform

**Microsoft Defender for Cloud**

Protect cloud and hybrid environments with comprehensive security

**Code-to-cloud protection across multicloud and hybrid environments**

- Broad workload security coverage
- Contextual threat analysis
- Recommendations to improve cloud security posture
- Infrastructure as code security

# Azure security offers protective products and services

## Microsoft Sentinel

AI-driven SIEM<sup>2</sup> for proactive threat detection, investigation, and response

## Azure Network Security

Cloud-native network security based on Zero Trust

## Confidential Computing

Sensitive data protection in use in memory

## Microsoft Purview

Data protection across platforms, apps, and clouds

## GitHub Advanced Security

Integration with features that secure app code and dependencies with GitHub

Global cybersecurity

**3,500**

experts working together to safeguard data in Azure

Built in compliance to fit evolving needs

**100+**

compliance certifications – the most in the industry

Commitment to security

**\$20B**

Microsoft investment in security in the next 5 years

Contact us and let's set up a meeting to discuss how we can improve your security posture.
